Hi Susan,

Thank you for the update regarding RCRA C corrective action at NIPSCO Bailly.

IDEM received a closure application for Bailly's CCR surface impoundments on February 4, 2021 (VFC #83109596). By letter dated April 23, 2021, we requested additional information regarding the proposed closures (VFC #83145293). On June 17, 2021, IDEM received NIPSCO's response to our request for additional information (VFC # 83172425). That response is now under review by IDEM technical staff.

Happy 4th to you as well!

Steve

Hi Stephen and Amy,

I wanted to give you a heads up that I learned from my colleague, Michelle Kaysen, in the RCRA C corrective action program, that the Region will be moving forward in the next week or so with a final decision on the remedies for Area C of the NIPSCO Bailey site. If you have any questions about that action, I've cc'd Michelle on this email.

Can you remind us of the status of IDEM's review/approval of the closure plan for the units that are also regulated by the federal CCR rule?

I hope you both enjoy the holiday weekend and have a happy 4th of July!
